Dear Friend Eric,

It is such a deep pleasure for me on behalf of my family and myself to be able to wish you a marvelous 100th Birthday! I look back on the times when I brought my boys as youngsters one at a time to St. Louis to enjoy the 6 Flags park- then you, Evelyn, Ruth and we two would go for dinner someplace and I think both boys fell asleep at the restaurant! But it was a fun time- besides the good numismatics and your valued assistance with the various projects along the way.

Stay well and busy- that's the key. My motto about old age is just this- old age is 10 years older than I am- no matter HOW old I am!

Very best personal regards from all of us!

Neil

Hello Eric,

It's been a while since we've been in touch. It is great to be able to contact you in this way, and I hope to be able to continue for a long while. I found some old correspondence having to do with the panic scrip book now in the hands of Fred Reed for putting into book form. Steve Whitfield had written me (this is back in 1988!) that you have in your collection a \$1 and a \$5 Wichita KS Clearing House Certificates dated 1914.

The reason I'm writing to you at this point is that while both are in the manuscript, somehow I failed to verify if the \$5 piece is issued, cancelled or not cancelled, or perhaps not issued. Then is it a specimen, proof, unsigned remainder or exactly what? Thus, at present it is listed as SENC because I did not fully determine its full state of existence. So could I please ask you to take a look at your example and tell me the details so I can clear up this particular listing?

If this can be done I will be most grateful. Thanks so much!

My best to Evelyn and of course to yourself. Cordially,
Neil

Dear Neil:

It was a delight to hear from you. I am so pleased that both of us are continuing to do numismatic research. I do not go to our bank vaults very often but will be glad to examine the Wichita scrip there next opportunity. I hope the delay will not interfere with your completion schedule but if so please let me know.

My nest wishes.

Eric

Dear Eric,

Thanks very much for your response. The information on the Wichita scrip will be welcome any time you are able to examine the piece. Fred Reed informed me that he is still in the imaging stage of the work, and any corrections/additions will be entered by me during the proofreading stage, so there is no particular rush. If it gets to the point that I am close to proofreading and do not have your details I will certainly let you know.

Stay well! All best, Neil

Dear Neil:

Thanks for the suggestion but I have previously turned down suggestions to sign up for Nickedin. I am trying to simplify my life. My best. Eric

Hello Eric,
Hope this finds you well. You may recall that there was a piece of scrip that I wanted to know about, whether it was issued, cancelled or whatever happened, and you indicated that you would be able to check it out for me. I have searched my files and can't come up with the exact information on that note- perhaps you still have it from the letter I would have sent to you some months ago about it.

The reason I ask about it is that I am now in the page proofreading phase, the book is coming along quite rapidly now, and that information would be very useful to have so I can insert the details on the page.

If you can't locate my letter and don't know which one I was referring to, well we can do with what I already have on it. It's probably in the very rare category and most collectors won't have to worry about it anyway, as with most of what is in the book.

With my best regards, as always,
Neil

Dear Neil:

I have not been at the appropriate bank safe deposit vault since you requested me to check the item but it is on my list to locate I expect to go soon .

In the meantime I would like to know if you possibly have a copy of my enormous typewritten list of my banknotes and scrip prepared decades ago as I believe you were sent it. I am missing only the list of banknotes and scrip list of CONNECTICUT.

I think I have most of my marbles and it was nice for you to ask. I am glad you are still researching as that will keep you humming. Eric
